Learn from top MBA faculty

Material across different courses is integrated so that everything you learn in class directly supports your team capstone project and your personal career development. The core business curriculum includes Business Communications, Financial Accounting, Corporate Finance, Managerial Economics, Marketing, and Spreadsheet Modeling. You will gain intimate access to MBA faculty and your peers through daily classes and office hours. While the academic business curriculum is delivered live, additional resources and materials—including pre-recorded faculty videos, readings, and assignments—are delivered asynchronous so you can work at your own pace.

Expand your skillset

Through team-based study, students will deepen their leadership, presentation, and teamwork abilities to become better decision makers and communicators—skills highly sought out by today's employers.

Explore career opportunities

In collaboration with Tuck Career Services and program alumni, Bridge delivers personalized career resources, timely content on industry trends, and hands-on skill development to help you transition into a successful career. As a student, you will have access to resume and cover letter reviews, mock interviews, alumni career panels, employer coffee chats, and skill-building workshops including fit interviews, and networking.

Build your network

Welcome to one of the most supportive alumni networks in the world. Our dedicated alumni pay it forward by promoting job opportunities and providing one-on-one career mentorship. As part of our network, you will have access to job postings from top employers, alumni events, networking opportunities, and more.
